INVESTMENT MEMORANDUM

CONFIDENTIAL | DS-00000000 | 2026-08-10

EXECUTIVE SUMMARY

Northwind Robotics is a Bristol-based warehouse automation vendor serving mid-market third-party logistics operators. FY2024 audited turnover was £3.2M against an EBITDA loss of £0.31M. Note that the pitch deck and the operating model quote £4.1M and £3.8M for the same period on pro-forma and run-rate bases respectively; the £3.2M actual is the figure used throughout this memorandum. Growth is real — FY2023 turnover was £1.95M — but the auditor has flagged that going concern depends on closing this round within twelve months, which makes the raise a condition of the business rather than an option.

COMPANY OVERVIEW

Name: Northwind Robotics Ltd

Industry: Warehouse automation for third-party logistics

HQ: Bristol, United Kingdom

Founded: 2019

Website: www.example.com

FINANCIAL HIGHLIGHTS

Annual Revenue	EBITDA	Net Income

Total Assets: £4.15M

Employees: 52 at year end (49 average over the year)

INVESTMENT READINESS SCORECARD

OVERALL SCORE: 3.0/5.0

CATEGORY	SCORE	KEY ISSUES / OBSERVATIONS
Financial Readiness	2.5/5	• Three conflicting FY2024 revenue figures across the dataroom • EBITDA negative • Going concern qualified on closing this round
Product Maturity	3.5/5	• 34 enterprise customers deployed • No product documentation or roadmap supplied
Go-To-Market	3.5/5	• 118% net revenue retention claimed but unevidenced • Named pipeline of £1.185M across four accounts
Team & Leadership	3.0/5	• Two named founders holding 55% between them • No CVs, references or org chart supplied
Legal & Compliance	2.0/5	• No client contracts, insurance or

		policies in the dataroom • No IP register
Capital Structure	4.0/5	• Clean cap table, 1x non-participating preference • 17% option pool with 5% unallocated
Market Positioning	3.0/5	• Segment rationale is stated but not sized • No competitive analysis supplied
ESG & Risks	2.0/5	• No ESG disclosure of any kind in the dataroom

TRANSACTION STRUCTURE

Category: Series A preferred equity

Value: GBP 6M at a GBP 30M pre-money valuation

Payment: Not specified in the dataroom

Timeline: Not specified in the dataroom

KEY TERMS

Closing Conditions: Not specified in the dataroom

Due Diligence: Not specified in the dataroom

Approvals: None identified

CRITICAL RISK FACTORS

FY2024 revenue is stated three ways across three documents, and the highest figure appears in the document written to raise money.: Anchor on the £3.2M audited actual and require management to reconcile the pro-forma and run-rate bridges in writing.

Going concern is conditional on this round closing within twelve months.: Confirm the runway calculation against the £1.02M cash balance and agree milestones before signing.

No client contracts were supplied, so revenue quality and churn exposure cannot be assessed.: Request the top ten contracts by ARR, with termination and renewal terms.

KEY SUCCESS FACTORS

Converting the named £1.185M pipeline on the stated timeline

Reaching EBITDA breakeven before the round's runway expires
